COTTON MARKETS

Thursday Afternoon, Sept. 11. Uncertainty pervades the speculative partment of the cotton market, but are is a subsidence of extreme bearthere is a subsidence of extreme bearishness and more disposition to hear the
other side of the story. There is no apparent disposition to do nuch on the
buying side, but confidence in further
declines is lessening and traders are
disposed to be mixed in their views.
Today saw a conflict of influences and
some erraidic changes. The storm in the
guif was a factor, for it developed unexrected severity over nicht and this oted severity over night, and this pring seemed to be headed for the nitnent between Florida and New Orans. This naturally caused some anxity, for a storm now with torrential ins would do much harm. However, the opening bearishness prevailed, intend by the news that the attent works. ar the opening centramess prevaled, in-spired by the news that the steel work-ers had called a strike for Sept. 22, having declined President Wilson's of-fer to delay it until after his return from his trip. The possibilities attend-ing such a strike were so far-reaching that it had depressing effect on all the ma. xets and overshadowed the change of the storm.

New York, but in New Orienns first rioss were at slight gains. However, he Southern market soon weakened and further recession took place. In New York December started at 28.55c and touched 28.35c before turning upsard. The fact that the stock market fiter its weak opening recovered, seemed to encourage support in cotton and short covering was indulged in. Then attention was directed more at the weakers of the stock market when washer respects along toward midthe weather, reports along toward mid-day indicating that the storm was likely to strike where it would do harm. to strike where it would do harm.

December sold above 29 cents, but was disposed to sag some. Then it was that the report came that Berlin reported American bankers had made arrangements to extend Germans some large credits, this helping to boost values again, December going to 29.15c. It was accompanied by some rather bullish advices from certain portions of the belt and reports of better inquiry for the actual. It was not long, however, before the hig New York bank credited with having extended the tredits issued a denial, which caused some reaction in prices.

he market is paying lots of attento the foreign situation, and if
re is not a lot of credit extended
outlook for export business is
omy indeed. Sterling today was
et and disposed to sag a little, while
German mark was quoted as low
3.75, the lowest on record. However,
weekly statistics are expected to
ne buillish tomorrow and there is ination that the South is not going to
er its early cotton freely around curit levels.

NEW ORLEANS, Sept. 11.—Fear that the hurricane was headed for the belt caused buying on the opening of the cotton market today and the nearer months rose 10 to 15 points but before the call was over offerings became very heavy from traders who were impressed with the seriousness of the steel labor situation and a slump resulted. At the end of the first half hour of trading prices were 45 to 50 points off from the top on the nearer months and 20 to 35 points under Tuesday's close on the list.

to 35 points under Tuesday's close on the list.

Storm warnings for the Louisiana coast and fear that the hurricane would bore into the central cotton belt caused buying in a large way on which prices mounted to a level 33 to 35 points higher than Tuesday's close in the trading up to the late morning.

After selling at 29.15 for December, or about 25 to 35 points net higher, the market eased off 20 or 25 points from the best under realizing. Pressure was held in check by the storm situation, however, and the market held around 25.90 for December during the middle of the afternoon.

FROM WALL STREET

Cotton. sion, reactions of 3 to 11 points resulting from the call of the steel leaders for a general strike on Sept. 22 Offerings of United States Steel were so extensive that first quotations were not available until some 15 minutes after the market opened. Steel's initial and lowest quotation of 101 represented an extreme reversal of virtually five points from Tuesday's final price. Crucible feil 11 points, but soon made up half its decline. Bethiehem lost eight and Republic four. Among shippings, rails, motors and oils first prices were lower by two to six points.

Excepting rails, which were slightly resistionary, the market extended its recovery at midday. American and Baldwin Locomotives continued to lead at actual gains of 4 and 11 points, respectively. Steels, motors, oils, to-baccos and eathers also made appreciable advances.

Weld & Co.—We believe in waiting for

a good opportunity to make purchases, but do not advise buying at the mo-ment. Orvin Bros.—We think the long side affords the greatest opportunity for gain.—Wagner & Co. New York.—Market strength is caused by short covering by Wall street and ring crowd on report that heavy winds are reported entering mouth of Misaissippi river.—McKennah to McPall.

New Orieans.—The market thus far has succeeded in ignoring the hurricane but there is bound to be heavy sher covering if the next bulletin indicates that it is headed for the cotton belt. Belling seems to be due principally to

weak Liverpool, rumor of steel strike and failure of storm to develop over elt; South also selling som nore free.—Gwathmey to Foster. Ticker reports dispatch Berlin say-ing American bankers arranged long-term credits.—Robertson & Co. to Craig

St Louis.—Labor is scarce and high but we think sufficient for presen needs. Altogether, we think our sec-tions are showing satisfactory prog-ress.—Lesser-Goldman Cotton Co.

New York—Firm on little trade and New Orleans buying; offerings light market small.—Clevenburg to Cotter &

Atlanta, Ga., wires: "Large Souther mill interest are showing item demand are buying any cheap basis cotton This section continues to deteriorate in beth quantity and staple."

New York—Foor cables, easy on general labor troubles here and abroad.
South and locals selling; storm still in gulf is market possibility.—Newman Bros. & Wohus to Wells & Gustafson.

New York—Berlin dispatch says American bankers have granted credits; Guaranty trust conceded its months to two years credit, accepting marks; other credits said to be pending.

New York—The Guaranty Trust com-pany denies that they have extended any credit to Germany—Ticker.

Chicago.—The Ohio state reports and the number of hogs on hand in that state for fattening is 2 per cent less than last year.—Clement Curtie.

Memphis receipts: Corn 3, oats 19 and hay 20 cars.

New York—The labor situation is still the most interesting factor as evi-denced by the strike threat of steel workers. The unnaturally violent finct-uations of Tuesday also tend to make for uneasiness and are not pleasing to lankers.—Houseman to Clark & Co.

New York—Bellef that no national steel strike would be called was largely responsible for the short covering and buying for long account that caused the sharp advance prior to the Pershing holiday, notwithstanding the president's request that they postpone action until after the capital and labor conference Oct. 6. Union leaders have called a strike, effective Sept. 22. This, combined with the wild Wilson talk of dire calamity unless his peace treaty and covenant are approved without reservations, may operate for an unsattled market for the present.—Financial New Bureau.
